Throughout the World.

WASHINGTON

The senate today ratified the nine-power treaty relating to China and the China tariff treaty, completing the process of American approval of the achievements of the International Conference on Limitation of Armaments.

The senate adopted a resolution introduced by Senator Dial of South Carolina, which directs an investigation of the cotton exchanges in New York, New Orleans and other cities by the Federal Trade Commission.

The sales tax will be adopted by the Senate to finance the soldiers' bonus, according to a prediction by Senator Smoot.

The Naval treaty was ratified by the Senate by a vote of 74 to 1, Senator France (Maryland), Republican, casting the only negative vote. The treaty prohibiting poison gas and regulating the use of submarines was also ratified, seventy-one Senators voting for and none against it.

President Harding deplors house action in ignoring budget bureau recommendations in army bill.

President Harding approved plans for converting Camp Grant, Ill., into a vocational reformatory for first offenders now in federal prisons.

Congress to be asked for \$5,000,000 loan to Liberia under plan that will give the United States control of that country.

House adds \$15,000,000 to appropriations for river and harbor improvements.

NATION'S BUSINESS

Idle mills at the Duquesne (Pa.) plant will be put in operation shortly.

According to reports from Lawrence, Mass., there are about 3,000 textile mill hands at work, compared with 21,000 on the payrolls last Saturday.

Senator Dial of South Carolina, in an address on the Shipping Board in the senate, said that "instead of looking out for business they tied up ships and kept them from doing business."

Senate orders investigation of Cotton Exchange.

Railroad reports for February continue to show marked improvement.

The copper industry is showing much improvement.

What is believed to be the start of an international security market in foreign bonds is seen in the move of the New York Stock Exchange in having foreign bonds cleared through the local stock clearing corporation.

It was reported that Durant Motors placed an order with Continental Motors for 250,000 motors.

An application of the Boston and Maine railroad for a government loan of \$5,000,000 has been approved by the Interstate Commerce Commission.

John L. Lewis, international president of the United Mine Workers of America, declared non-union coal miners in both bituminous and anthracite fields will join strike of union miners.

GENERAL

Suspension bridge across Hudson above Peekskill, N. Y., authorized by Governor Miller.

Governor Miller announces he will not allow New York state's water power development to fall into hands of private corporations.

Alfred E. Lindsey, who duped many prominent women with stories of his intimacy with financial potentates and is said to have amassed more than \$500,000 in this way, pleaded guilty of grand larceny in New York and gave testimony before the grand jury which resulted in the indictment of two of his alleged accomplices.

Representative Mondell of Wyoming insisted there is complete harmony between the President and Congress.

The 110-inch and 72-inch mills of the Homestead plant of Carnegie Steel mills at Pittsburgh will resume operations.

The American Chamber of Commerce of the Philippine Islands urged continuance of the press service by the navy wireless.

Three Chicago armed bandits invaded the home of Mrs. Julia Magden during a poker party, robbed six guests of \$10,000 in cash and jewelry, shot a roomer and escaped.

International organizers are at work seeking to enlist the aid and co-operation of non-union miners to make the suspension of industry still more effective.

The 4,700 German dye patents which Francis P. Garvan, as Allen Property Custodian, sold for \$250,000 to the Chemical Foundation, of which he is president, were worth "many millions" of dollars, according to testimony of Herman A. Metz, New York dye and chemical manufacturer and importer, before the senate committee in Washington investigating the dye and chemical industry.
